INTRODUCTORY SECTION

September 18, 2019

The Honorable Members of City Council and the Citizens of the City of Walterboro, South Carolina

State law requires that all general-purpose local governments publish within six months of the close of each fiscal year a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants. Pursuant to that requirement, we hereby issue the comprehensive annual financial report of City of Walterboro for the fiscal year ended June 30, 2019.

This report consists of management's representations concerning the finances of the City. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the City has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the City's financial statements in conformity with GAAP. Because the costs of internal controls should not outweigh their benefits, City of Walterboro's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The City's financial statements have been audited by The Baird Audit Group, LLC, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City for the fiscal year ended June 30, 2019, are free of material misstatement. The independent audit involves examining on a test basis, evidence supporting the amounts and disclosures in the financial statement presentation; assessing the accounting principles used and significant estimates made by management and evaluating the overall financial statement presentation. The independent auditor concluded based upon the audit that there was a reasonable basis for rendering an unmodified opinion that the City's financial statements for the fiscal year ended June 30, 2019, are fairly presented in conformity with GAAP. The independent auditors' report is presented as the first component of the financial section of this report.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of management's discussion and analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. City of Walterboro's MD&A can be found immediately following the report of the independent auditors.

Profile of the Government

The City of Walterboro was incorporated in 1826 and is located in Colleton County, South Carolina. It is 54 miles south of Charleston, South Carolina and 69 miles north of Savannah, Georgia on Interstate I-95 exits 53 and 57. At June 30, 2019, the City occupied a land area of 6.7 square miles and serves a population of approximately 5,468. The City is empowered to levy a property tax on both real and personal property located within its boundaries.

The City operates under the council manager form of government. Policy-making and legislative authority are vested in a governing council consisting of seven members. The governing council is responsible, among other things for passing ordinances, adopting the budget, appointing committees, and hiring both the government's manager and attorney. The government's manager is responsible for carrying out policies and ordinances of the governing council, for overseeing the day-to-day operations of the government, and for appointing the heads of various departments. The six Council members and Mayor are each elected to four-year staggered terms, with three council members elected every two years.

The City provides a full range of services to its citizens including: police, fire, public works, zoning and code enforcement, parks, municipal court, economic development, tourism, and water and sewer services.

The annual budget serves as the foundation for the City's financial planning and control. All departments of the City of Walterboro are required to submit requests for appropriations to the manager the first week in February each year. The City Manager uses these requests as the starting point for developing a proposed budget. These requests are based upon the policy goals requested by the Council at an annual planning retreat. The City Manager then presents this proposed budget to the Council for review the first week in April. The Council is required to hold public hearings on the proposed budget and to adopt a final budget by no later than June 30th, the close of the City's fiscal year. The appropriated budget is prepared by fund and department. Budgetary control (that is the level at which expenditures cannot legally exceed the appropriated amount) is maintained by the manager at the fund level and may be amended as necessary during the fiscal year. Budget-to-actual comparisons are provided in the report for each individual governmental fund for which an appropriated annual budget has been adopted. For the general fund, this comparison is presented on page 63 as part of the required supplementary information for governmental funds.

Factors Affecting Financial Condition

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the City operates.

Local Economy

According to the Census Bureau, median household income is approximately \$28,929. Walterboro's existing retail marketplace is approximately \$414 million (as extrapolated from business license returns). Many big box retailers and more than a dozen large hotels continue their operations in Walterboro's vibrant local economy. In 2019, we saw the location and construction beginning for Parker's Kitchen, Cookout, Zips Car Wash as well as a new Latin American eatery. Economic development efforts continue to create substantial commercial redevelopment throughout the City as well. Colleton Medical Center completed more major improvements and plan more in the upcoming year. Downtown has seen new businesses and building renovation undertaken and this is expected to continue into next year as momentum continues to build. Overall, the local economy is strong and growing.

Long-term Financial Planning

One of the City's primary concerns is that the necessary planning and growth management tools are implemented to assure that the future cost of providing City services does not exceed the revenues generated from slow--but steady--growth. During the budget preparation process, capital needs are projected five years into the future, along with anticipated revenues and related operating expenditures. These projections are updated each year. The City's water and wastewater treatment resources continue to be a critical component of the City's ability to service its population and attract commercial development. In fiscal year 2018-2019, the City did have an increase for residential and commercial garbage rates. The City of Walterboro continues its efforts to provide quality water and wastewater treatment services to its customers.

Relevant Accounting Policies

Internal Controls – Internal controls are procedures that are designed to protect assets from loss, theft, or misuse; to check the accuracy and reliability of accounting data; to promote operational efficiency; and to encourage compliance with managerial policies. The management of the City is responsible for establishing a system of internal controls designed to provide reasonable assurance these objectives are met.

Budgetary Controls – The City maintains budgetary controls which are designed to ensure compliance with legal provisions of the annual budget adopted by Council. It is the City's objective to conduct an open budget process providing for input from department administrators, top management, elected officials, and the public as the City's programs and services are determined for the next year.

Major Initiatives

The City of Walterboro began the next phase of a 15-phase, I-95 Business Loop Streetscape project that upon completion, will total approximately \$12.65 million in improvements. The project will span the entire length of S. Jefferies Blvd/N. Jefferies Blvd/Bells Highway between I-95 exits 53 and 57. With completion of the public questionnaire, field inventory/assessment, public input meetings, and conceptual master plan recommendations, the objectives of the project are:

- Mast Arm Enhancements throughout the corridor
- Commercial Village Enhancements (S. Jefferies Blvd.)
- Street Lighting and Banners
- Intersection Enhancements
- Median and Bike Lane Enhancements

The objectives of the project are to reduce the amount of curb cuts/driveways, provide landscaped medians, enhance floral and ornamental landscaping using native and naturalized plants, reducing the speed limit, provide bicycle lanes, improve directional signage, tourism destination signage (i.e., festival, seasonal, etc.), supplement existing street lighting with decorative lighting fixtures, provide new/additional street lighting, and attract more visitors and tourists to the historic downtown of Walterboro.

The City has also completed the North Lemacks Street Neighborhood revitalization project and began engineering for construction of a new well to be located on Mable T. Willis Blvd. The new well will increase the City's water supply capability by 8.5% and provide a more geographically dispersed supply of water into the system. These programs will enhance the quality of life for all our citizens.

These programs include:

- 1) \$798,742 for the I-95 Business Loop Streetscape project
- 2) \$177,901 for revitalization of the North Lemacks Street neighborhood Phase III
- 3) \$12,339 for the Washington Street Water Improvements
- 4) \$237,712 for the Highway 15 Waterline relocation
- 5) \$30,351 for the Mable T Willis Well project

In addition, the City is continuing construction on the Walterboro Wildlife Sanctuary Discovery Center project. The Discovery Center will have live animal exhibits, static displays, classroom space and meeting space that will create a comprehensive experience for nature-based tourists, students and citizens alike as they can learn about the important role that ecosystems like the Walterboro Wildlife Sanctuary play in the Lowcountry of South Carolina. The amphitheater will provide a downtown venue for musical performances, plays and live animal exhibitions. Total project cost is estimated to be \$2,220,000.

Awards and Acknowledgments

The Government Finance Officers Association of the United States and Canada (GFOA) awards a Certificate of Achievement in Financial Reporting. In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized Comprehensive Annual Financial Report, the contents of which conform to program standards. Such reports must satisfy both generally accepted accounting principles and applicable legal requirements.

For the past seven consecutive years, the City of Waltherboro has received a "Certificate of Achievement for Excellence in Finance Reporting" award. A Certificate of Achievement is valid for a period of one year only. The current report will conform to certificate of achievement program requirements, and will be submitted to the GFOA to determine its eligibility for another certificate.

The preparation of the comprehensive annual financial report was made possible by the cooperation of the department managers and staff of the City. Each of these individuals has our sincere appreciation for the contributions made in the preparation of this report.

Sincerely,

Jeffrey P. Molinari

INDEPENDENT AUDITORS' REPORT

Mayor and City Council
City of Walterboro, South Carolina
Walterboro, South Carolina 29488

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Walterboro, South Carolina, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Walterboro, South Carolina, as of June 30, 2019, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 10-18 and 63, Schedule of the Proportionate Share of the Net Pension Liability, Schedule of Contributions, Schedule of Funding Progress and Employer Contributions and Schedules of Funding Progress and Employer Contributions Other Postemployment Benefits on pages 64-68, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Walterboro, South Carolina's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal award is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirement, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards are fairly state in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated September 18, 2019, on our consideration of the City of Walterboro, South Carolina's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Walterboro, South Carolina's internal control over financial reporting and compliance.

Management's Discussion and Analysis

As management of City of Walterboro (the City), we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended June 30, 2019. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages 1 to 4 of this report.

Financial Highlights

- The assets of the City exceed its liabilities at the close of the most recent fiscal year by \$27,930,209 (net position). Of this amount, \$2,319,205 (restricted net position) was restricted for specific purposes, \$32,630,484 represented the net investment in capital assets, and the remaining deficit of \$(7,019,480) was unrestricted. The City's total net position increased by \$592,259 for the year ended June 30, 2019.
- As of the close of the current fiscal year the City's governmental funds reported combined ending fund balance of \$5,849,538, a decrease of \$1,243,658 due to the Discovery Center project.
- At the end of the current fiscal year, unassigned fund balance for the general fund was \$3,800,469 or 52% of the total fund expenditures excluding projects funded by outside contributions.
- At the close of the current fiscal year, the City's proprietary type funds reported a combined ending net position of \$22,749,591, a decrease of \$52,372.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of City of Walterboro's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the City's assets, liabilities, and deferred inflows/outflows of resources, with the difference reported as net position. Over time, increases and decreases in the net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g. uncollected taxes and earned but unused vacation leave).

The government-wide financial statements distinguish functions of the City that are supported by taxes and intergovernmental revenues (governmental activities). The governmental activities of the City include general government, finance, public works, sanitation, emergency services, planning and development, courts, police, fire, and parks, recreation and tourism. The business-type activities of the City include a water and sewer authority and the sanitation department.

The government-wide financial statements can be found on pages 19-21 of this report.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City like other state and local governments uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into these three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governments for which similar information is presented for the governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains eight individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the general fund and capital project funds that are considered to be major funds. Data from the other five governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

The City adopts an annual appropriated budget for its general fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 22-25 of this report.

Proprietary funds. Services provided to the general public for which customers are charged a fee are generally reported in Enterprise funds, which are proprietary funds. Proprietary funds provide the same type information as the government-wide financial statements, only in more detail. The City has one proprietary fund for water, sewer and sanitation services, which is an enterprise fund. A budget is presented in the supplemental statements to monitor the performance of the operations. Also included in the supplemental statements is a combining statement that reports the balances by City for the communities of Ruffin and Hendersonville. The basic proprietary fund financial statements can be found on pages 26-28 of this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statement because the resources of those funds are not available to support the City's own programs. The basic fiduciary fund financial statement can be found on pages 29-30 of this report.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 31-62 of this report.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the City's budget, historical pension and other post employment benefits on pages 63-68.

The combining statements referred to earlier in connection with nonmajor governmental funds are presented immediately following the required supplementary information. Combining and individual fund statements and schedules can be found on pages 69-85 of this report.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of City of Walterboro assets and deferred outflows exceeded liabilities and deferred inflows by \$27,930,209 at the close of the most recent fiscal year. The following table reflects the condensed governmental-wide statement of net position.

CITY OF WALTERBORO, SOUTH CAROLINA NET POSITION						
	Governmental Activities		Business -Type Activities		Total	
	2019	2018	2019	2018	2019	2018

Deferred Inflows of Resources	300,074	310,304	-	-	300,074	310,304
Net Position						
Net Investment in Capital Assets	11,777,584	9,473,261	20,852,900	21,031,061	32,630,484	30,504,322

Total Net Position	\$ 5,180,618	\$ 4,535,987	\$ 22,749,591	\$ 22,801,963	\$ 27,930,209	\$ 27,337,950

By far the largest portion of the City's net position \$32,630,484 (117%) reflects its investment in capital assets (e.g. land, construction in progress, building and improvements, machinery and equipment, vehicles, and infrastructure); less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The restricted portion of the net position of \$2,319,205 (8%) represents restricted resources and are not available to fund other commitments. The largest portion \$2,319,205 of the restricted net position represents \$772,888 restricted for capital projects, \$1,086,864 committed for tourism related expenses, \$323,353 restricted for debt covenants, and \$136,100 restricted to housing, public safety, and project expenses of the City in the governmental activities.

The balance of unrestricted net position represents a deficit of \$(7,019,480) (-25%) due to the recognition of the net pension liability and other post-employment benefits as a long-term obligation.

The City's total net position increased by \$592,259 for the year ended June 30, 2019 summarized below:

Financial Analysis of the Government's Funds

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing City of Walterboro's financing requirements. In particular, fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At the end of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$5,849,538, a decrease of \$1,243,658 due to the Discovery Center project.

The fund balance of the City's general fund decreased by \$89,421 during the current fiscal year. Overall revenues were \$1,146,717 more than budgeted. Likewise, the City's overall expenditures were over budget by \$1,097,283. The revenues and expenditures budget overages were related to the projects that were funded by outside grants and contributions primarily for the I95 Loop and the Brownsfield Cleanup Assessment as well as USDA grants. The City budgeted for a loss of \$117,018 but overall managed to end the year with a loss of \$89,421 with an approximate favorable budget variance of \$36,038.

The fund balance of the City's capital projects fund decreased by \$125,459 during the current fiscal year for expenditures related to ongoing projects for the Discovery Center.

Capital Assets and Debt Administration

Capital Assets. The City's investment in capital assets as of June 30, 2019 amounts to \$38,164,877 (net of accumulated depreciation). This investment in capital assets includes land, construction in progress, buildings and improvements, machinery and equipment, vehicles, and infrastructure. Major capital asset events during the current year include the following:

- In business-type activities, capital additions of \$668,581 related to vehicles of \$291,325, equipment of \$35,004, HVAC of \$6,087, sewer projects of \$30,413, and various wells and water line improvements or relocations of \$305,752.
- In public works, continued progress on the N. Lemacks project for \$177,901, \$798,742 for the I-95 Loop project and \$24,109 roof for City Hall were capitalized.
- In the mayor and council, building improvements to the City Hall ceiling for \$5,500 were capitalized.
- In the fire department, fire equipment for \$20,080 was capitalized.
- In the parks department, work on the Discovery Center of \$1,412,273 was capitalized and \$48,458 for equipment.
- In the police department, vehicles and a data storage unit for \$255,457 were capitalized.

State statutes limit the amount of general obligations debt a governmental entity may issue, without a referendum, to 8% of its total assessed valuation. The current debt limitation for the City is \$2,560,513 of which \$794,462 is outstanding.

Additional information on the City's long-term obligations can be found in note 7 beginning on page 41 of this report.

Economic Factors and Next Year's Budgets

- While the national economy remains constant, the City has experienced continued growth in the retail and hospitality sectors which has stabilized the local economy. Local retail sales increased by 14% while local hospitality had an increase of 4%.
- Property taxes increased by 2.4% primarily due to collections.
- The City's continued to receive inquiries regarding commercial space and development opportunities located within City limits, which indicates businesses are optimistic about continued economic growth in Walterboro.
- Budget variance were due to increased revenue and expenditures primarily relating to grants and projects.

The City set the millage for the 2020 budget at 86.4 mills. Budgeted general fund expenditures for 2020 are projected to be \$7,214,995. This represents an increase of \$139,175 compared to budgeted expenditures in 2019. Also, the City has budgeted \$4,362,350 in expenses for the proprietary fund in 2020. This represents an increase of \$235,450 compared to budgeted expenditures in 2019.

RECONCILIATION OF THE BALANCE SHEET OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF NET POSITION
JUNE 30, 2019

Total net position reported for governmental activities in the statement of net position is different because:

Total fund balances for governmental funds	\$	5,849,538
--	----	-----------

Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds. Those assets consist of:

Land and Improvements	\$	1,362,882	
Construction in Progress		3,001,720	
Buildings and Improvements, net of \$1,764,636 accumulated depreciation		2,860,739

Infrastructure, net of \$1,211,028 accumulated depreciation		<u>4,362,829</u>	
Total Capital Assets			13,186,272

Deferred outflows and inflows of resources represents amounts applicable to future periods and, therefore, are not reported in the funds:

Deferred outflows of resources:			
Related to pensions and other post employment benefits		1,739,923	
Deferred inflows of resources:			
Related to pensions and other post employment benefits		(300,074)	
Related to receivables		<u>99,554</u>	
Total deferred outflows and inflows of resources			1,539,403

Long-term liabilities applicable to the City's governmental activities are not due and payable in the current period and accordingly are not reported as fund liabilities. Interest on long-term debt is not accrued in governmental funds, but rather is recognized as an expenditure when due. All liabilities --both current and long-term--are reported in the statement of net position.

Balances at end of year are:

Accrued Interest Payable		(14,436)	
Bonds Payable		(3,242,294)

CITY OF WALTERBORO, SOUTH CAROLINA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Description of Government-Wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government and its component units. All fiduciary activities are reported only in the fund financial statements. For the most part, the effect of inter-fund activity has been removed from these statements. *Governmental* activities, which normally are supported by taxes, intergovernmental revenues, and other non-exchange transactions, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges to external customers for support.

Reporting Entity

The City of Walterboro, South Carolina (the “City”) is a political subdivision of the State of South Carolina, operating under the Council-Manager form of government to provide services authorized by its charter. It is governed by an elected Board (the “Council”), which is governed by state statutes and regulations. The City Council acts as the governing body of the City with power to pass ordinances and adopt resolutions. The accompanying financial statements present the government and its component units, entities for which the government is considered to be financially accountable. Blended component units are, in substance, part of the primary government’s operations, even though they are legally separate entities. Thus, blended component units are appropriately presented as funds of the primary government. Each discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the government.

Discretely Presented Component Units

The Walterboro Tourism Commission is fiscally dependent upon the government because the City Council approves the budget and can significantly influence the decisions of the Walterboro Tourism Commission. The Walterboro Tourism Commission does not issue separate financial statements.

Three of the five members of the Walterboro Development Corporation are appointed by the Council. The Walterboro Development Corporation is fiscally dependent upon the government because the City Council approves the budget and can significantly influence the decisions of the Walterboro Development Corporation. The Walterboro Development Corporation does not issue separate financial statements.

Basis of Presentation – Government-Wide Financial Statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds and internal service funds, while business-type activities incorporate data from the government’s enterprise funds. Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments in lieu of taxes where the amounts are reasonably equivalent in value to the interfund services provided and other charges between the government’s water functions and various other functions of the government. Eliminations of these charges would distort the direct costs and program revenues for the various functions concerned.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Basis of Presentation – Fund Financial Statements

The fund financial statements provide information about the government's funds, including its fiduciary funds and blended component units. Separate statements for each fund category—governmental, proprietary, and fiduciary—are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds. Major individual governmental and enterprise funds are reported as separate columns in the fund financial statements.

The City reports the following major governmental funds:

The *general fund* is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *capital projects fund* accounts for the acquisition of capital assets or construction of major capital projects not being financed by proprietary or nonexpendable trust funds.

The City reports the following non-major funds:

The *special revenue funds* account for revenue sources that are legally restricted to expenditures for specific purposes (not including expendable trusts or major capital projects) such as grants, fire and other special purpose fees, and economic development.

The City reports the following major proprietary fund:

The *water and sewer fund* accounts for the activities of the water, sewer and sanitation operations. The City operates the sewage treatment plant, sewage pumping stations and collection systems, and the water distribution system.

Additionally, the City reports the following fund types.

The *post retirement fund* accounts for the activities of the retired employee's health benefits, which accumulates resources for payment of retirees' health insurance.

The *agency fund* accounts for municipal court fines collected for the State of South Carolina and for the firemen's one percent fund.

During the course of operations the City has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds. While these balances are reported in fund financial statements, certain eliminations are made in the presentation of the government-wide financial statements.

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in the governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column. Similarly, balances between the funds included in business-type activities are eliminated so that only the net amount is included as transfers in the business-type activities column.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as *current financial resources* or *economic resources*. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

The City's fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within the first 60 days of the end of the current fiscal period, except for grant reimbursements for which the availability period is 90 days. Expenditures generally are recorded when a liability is incurred as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt for acquisitions under capital leases are reported as other financing sources.

Property taxes, sales taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year end). Expenditure driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year end). All other revenue items are considered to be measurable and available only when cash is received by the City.

The proprietary and other postemployment benefit trust funds are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. The agency fund has no measurement focus but utilizes the *accrual basis of accounting* for reporting its assets and liabilities.

Budgetary Information

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for the general fund. Other special revenue funds do not have appropriated budgets since other means control the use of these resources (e.g., grant awards and issuances of debt) and sometimes span a period of more than one fiscal year.

The appropriated budget is prepared by fund, function, and department. The government's department heads may make transfers of appropriations within a department. Transfers of appropriations between departments require the approval of the administrator. The legal level of budgetary control (i.e., the level at which expenditures may not legally exceed appropriations) is the fund level.

Appropriations in all budgeted funds lapse at the end of the fiscal year.

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance

Cash and cash equivalents and deposits

The City considers cash and cash equivalents for cash flow purposes to be currency on hand, demand deposits with banks, amounts included in pooled cash and investment accounts, and liquid investments with an original maturity of three months or less when purchased.

Investments

Investments for the City are reported at fair value determined annually based upon quoted market prices.

Inventories and Prepaid items

Inventories are valued at cost using the first-in/first-out (FIFO) method and consist of expendable supplies and vehicle repair parts. The cost of such inventories is recorded as expenses when consumed rather than when purchased in the proprietary fund.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

Capital assets

Capital assets, which include property, plant, and equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items,) are reported in the applicable governmental or business-type activities column in the government-wide financial statements. Capital assets, other than infrastructure, are defined by the government as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. For infrastructure assets the same estimated minimum useful life is used, but only those infrastructure assets with an initial, individual cost of \$50,000 are reported as capital assets. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets, donated works of art and similar items, received in a service concession arrangement should be reported at acquisition value rather than fair value. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during construction of governmental-type activities is not capitalized.

All reported capital assets except land and construction in progress are depreciated. Useful lives for infrastructure are estimated based on the City's historical records of necessary improvements and replacements. Depreciation is provided using the straight-line method over the following estimated useful lives:

<u>Capital Asset Classes</u>	<u>Years</u>
Buildings and Improvements	5 to 50
Vehicles	5 to 20
Machinery and Equipment	5 to 30
Infrastructure	5 to 50

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/expenditure) until then. The City reports deferred outflows related to its other post employment benefits and net pension liability in the statement of net position.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. The City has only one type of item, which arises only under a modified accrual basis of accounting that qualifies for reporting in this category. Accordingly, the item, *unavailable revenue*, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from one source: property taxes. This amount is deferred and recognized as an inflow of resources in the period that the amounts become available. The statement of net position reports deferred inflows related to its other post employment benefits and net pension liability.

Net Position Flow Assumptions

Sometimes the City will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted net position and unrestricted net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted net position to have been depleted before unrestricted net position is applied.

Fund Balance Flow Assumptions

Sometimes the City will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

Fund Balance Policies

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The City itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

CITY OF WALTERBORO, SOUTH CAROLINA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the City's highest level of decision-making authority. The City Council is the highest level of decision-making authority for the government that can, by adoption of an ordinance prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the ordinance remains in place until a similar action is taken (the adoption of another ordinance) to remove or revise the limitation.

Amounts in the assigned fund balance classification are intended to be used by the City for specific purposes but do not meet the criteria to be classified as committed. The City Council has by resolution authorized the finance director to assign fund balance. The Council may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget unlike commitments. These assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

Revenues and Expenditures/Expenses

Program Revenues

Amounts reported as *program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions (including special assessments) that are restricted to meeting the operational or capital requirements of a particular function or segment. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than as program revenues.

Property taxes

Taxes on real property and certain personal property attach as an enforceable lien on the property as of January 1. Taxes are levied and billed the following September on all property other than vehicles and are payable without penalty until January 15 of the following year. Penalties are assessed on unpaid taxes on the following dates: January 16 – three percent, February 1 – an additional seven percent, March 16 – an additional five percent. If not paid by October 1, the property is subject to sale by the delinquent tax office. Assessed property is subject to lien one year from the levy date if taxes remain unpaid. Taxes on licensed motor vehicles are levied during the month when the taxpayer's license registration is due for renewal. The property tax rate approved by ordinance for fiscal year 2019 is 86.4 mills.

Compensated absences

The City's policy permits employees to accumulate earned but unused vacation benefits, which are eligible for payment upon separation from government service. The liability for such leave is reported as incurred in the government-wide and proprietary fund financial statements. A liability for those amounts is recorded in the governmental funds only if the liability has matured as a result of employee resignations or retirements. The liability for compensated absences includes salary-related benefits, where applicable. Accumulated sick leave lapses when employees leave the employ of the government and, upon separation from service, no monetary obligation exists.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Proprietary Fund Operating and Non-operating Revenues and Expenses

Proprietary funds distinguish *operating* revenues and expenses from *non-operating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the water and sewer fund are charges to customers for sales and services. The water and sewer fund also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

NOTE 2 – STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Budgetary Information

In accordance with the State of South Carolina General Statute, the City prepares an annual balanced budget ordinance. The basis of budgeting is the same as generally accepted accounting principles. The City adopts annual budgets for the general fund using the modified accrual basis. An annual budget for the special revenue fund is not adopted as sufficient budgetary control is achieved through restrictions included in the various grant agreements.

In March, the budget process begins with a special comprehensive work session in which the finance department and city manager meet with all department heads to discuss current and future trends, needs and goals of the City. All department heads submit comprehensive lists of programs, projects, and initiatives to be considered in the upcoming budget and meet with finance department staff and the administrator individually. During May and June, formal budget workshops are held. The Council holds public hearings and a final budget must be prepared and adopted no later than June 30.

Budgets are prepared at the fund, function and department level. Budgets are adopted at the fund level and are amended as necessary during the fiscal year in one of two ways. First, the City Manager delegated by City Council, may make line item transfers within individual fund budgets with subsequent monthly notice to City Council. Such transfers can neither increase nor decrease the overall budget at the fund level. Secondly, the budget may be increased or decreased at the fund level as changing circumstances dictate, subject to City Council approval.

NOTE 3 – DEPOSITS AND INVESTMENTS

Credit Risk – The City has an investment policy that limits investment types to those approved by the South Carolina Code of Laws to obligations of the United States and agencies thereof, general obligations of the State of South Carolina or any of its political subdivisions, certificates of deposit where the certificates are collaterally insured by securities described above held by a third party as escrow agent or custodian of a market value not less than the amount of the certificates of deposits so secured including interest, or repurchase agreements when collateralized by securities set forth above. Currently, the City's investments consist of deposits with the South Carolina Local Government Investment Pool (LGIP).

CITY OF WALTERBORO, SOUTH CAROLINA
NOTES TO FINANCIAL STATEMENTS

NOTE 3 – DEPOSITS AND INVESTMENTS (CONTINUED)

The LGIP is considered to be a 2a7-like pool that operates in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940. The pool is managed by the Treasurer's Office of the State of South Carolina. The pool is not registered with the SEC as an investment company. The fair value of the balance in the LGIP represents the same value as the pool shares.

Interest Rate Risk – In accordance with its investment policy, the City manages its exposure to declines in fair value by limiting the weighted average maturity of its investments to short-term investments in the South Carolina Local Investment Pool.

Custodial Credit Risk – Custodial credit risk is the risk that in the event of a bank failure, the City's deposits may not be returned to it. The City has a deposit policy for custodial credit risk. As of June 30, 2019, the bank balances were \$6,967,563. All of the City's deposits at year end were covered by federal depository insurance or by collateral held in the pledging financial institution's trust department in the City's name. Therefore, none of the City's deposits were exposed to custodial credit risk at June 30, 2019.

Total transfers out	<u>\$ 994,624</u>	<u>\$ 3,000</u>	<u>\$ 997,624</u>

Transfers are used to (1) move revenues from the water and sewer fund and nonmajor funds to the general fund as provided in the budget, (2) move completed projects from the nonmajor projects fund to the water and sewer fund, and (3) move amounts earmarked for future equipment replacement from the nonmajor equipment replacement fund.

Interfund balances must generally be eliminated in the government-wide financial statements, except for the net residual amounts due between governmental activities. Amounts involving fiduciary funds should be reported as external transactions. Any allocations must reduce the expense of the function from which the expenses are being allocated, so that expenses are reported only once – in the function in which they are allocated. No amounts were reported in the government-wide financial statements, as the amount did not involve the transfers of financial resources.

Commitments Under Noncapitalized Leases – The City has operating leases on various small equipment. Amounts due are insignificant to the financial statements.

Compensated Absences

Unused vacation leave liabilities are reported in the applicable governmental type activities columns in the government-wide financial statements. Upon proper resignation or termination for non-disciplinary reasons an employee shall be paid at their regular straight time rate for unused leave earnings up to a maximum of 144 hours plus one-half of current year unused accrual. The City has no financial liability for unused sick leave. Compensated absences are paid from the general fund and water and sewer fund. The liability for compensated absences at June 30, 2019 amounted to \$200,460 and \$61,323, respectively, for the governmental activities and business-type activities and includes 20% for employee benefits.

Other Post Employment Benefits

Plan Description – City employees who participated in the City's health insurance plan and who retire from City service in accordance with the South Carolina Retirement System may have their health insurance continued.

Service Retirees and employees enrolled in the health plan on or before July 1, 2010, and meet at least one of the following criteria: (1) have at least 16 years of continuous service with the City and be a Mayor, Council Member, or Council Appointee; or (2) have at least 15 years of continuous service with the City and retire from PORS; or (3) have at least 18 years of continuous service with the City and retire from SCRS. Participants with less than 10 years of service with the City on July 1, 2010 may not receive benefits until they are at least age 60 regardless of age at retirement. Participants with at least 10 years of service with the City on July 1, 2010 receive benefits immediately upon retirement.

Funding policy – The contribution requirements of plan members and the City are established and may be amended by the City Council. The required contribution is based on projected pay-as-you-go financing requirements, with an additional amount to prefund benefits as determined annually by the City Council. For fiscal year ended June 30, 2019, the City contributed \$0 to the plan and is paid from the general fund. Administrative costs of the OPEB Trusts are paid from the plan assets.

The following table summarizes the membership of the Plan as of January 1, 2017, the valuation date:

Actuarial Methods and Assumptions

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. The occurrences that must be considered include employee turnover, pay increases, disablement, retirement, deaths, and investment income on anticipated plan assets. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented below, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

NOTE 7 – LONG-TERM OBLIGATIONS (CONTINUED)

Actuarial Methods and Assumptions (Continued)

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The TOL was determined by an actuarial valuation as of January 1, 2017, using the following key actuarial assumptions and other inputs:

Inflation	2.25%
Real wage growth	
SCRS	0.75%
PORS	1.25%
Wage inflation	
SCRS	3.00%
PORS	3.50%
Salary increases, including wage inflation	
SCRS	3.00% - 7.00%
PORS	3.50% - 9.50%
Long-term Investment Rate of Return, net of OPEB plan investment expense, including price inflation	4.75%
Municipal Bond Index Rate	
Prior Measurement Date	3.55%
Measurement Date	4.10%
Year FNP is projected to be depleted	
Prior Measurement Date	N/A
Measurement Date	N/A
Single Equivalent Interest Rate, net of OPEB plan investment expense, including price inflation	
Prior Measurement Date	4.75%
Measurement Date	4.75%
Health Care Cost Rates	
Pre-Medicare	7.50% for 2017 decreasing to an ultimate rate of 5.00% by 2023
Medicare	5.50% for 2016 decreasing to an ultimate rate of 5.00% by 2020

The discount rate used to measure the TOL was based upon the long-term expected rate of return.

NOTE 7 – LONG-TERM OBLIGATIONS (CONTINUED)

Actuarial Methods and Assumptions (Continued)

Mortality rates were based on the RP-2014 Mortality Table for Employees with a 95% multiplier to better reflect anticipated experience and provide a margin for future improvements.

The demographic actuarial assumptions for retirement, disability incidence, withdrawal, and salary increases used in the January 1, 2017 valuation were based on the results of an actuarial experience study adopted by SCRS and PORS.

The remaining actuarial assumptions (e.g., initial per capita costs, health care cost trends, rate of plan participation, rates of plan election, etc.) used in the January 1, 2017 valuation were based on a review of recent plan experience done concurrently with the January 1, 2017 valuation.

Several factors should be considered in evaluating the long-term rate of return assumption, including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) are developed by the investment consultant for each major asset class. These ranges should be combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The capital market assumptions developed by the investment consultant may cover a shorter investment horizon and may not be useful in setting the long-term rate of return for funding OPEB plans which are likely to cover a longer timeframe. The assumption is intended to be a long-term assumption and is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years.

As of the most recent adoption of the current long-term rate of return by the Plan, the target asset allocation for each major asset class, as provided by the Plan, are summarized in the following table:

Asset Class	Target Allocation
Fixed Income	94.3%
Equity Funds	0.0%
Cash and Cash Equivalents	5.7%
Total	100.0%

Discount Rate (SEIR). The discount rate used to measure the TOL as of the Measurement Date was 4.75%. The projection of cash flows used to determine the discount rate was performed in accordance with GASB 74. The projection's basis was an actuarial valuation performed as of January 1, 2017. In addition to the actuarial methods and assumptions of the January 1, 2017 actuarial valuation, the following actuarial methods and assumptions were used in the projection of cash flows:

- Total payroll for the initial projection year consists of the payroll of the active membership present on the valuation date. In subsequent projection years, total payroll was assumed to increase annually using the payroll growth assumptions.
- Active employees do not explicitly contribute to the Plan.
- In all future years, the employer continues to contribute the amount equal to the average contribution over the last five years. These contributions may be either to the Trust or as direct payment of benefits to plan members as the benefits come due. The employer is assumed to have the ability and willingness to make contributions to the Trust and benefit payments from its own resources for all periods in the projection.
- Projected assets do not include employer contributions that fund the estimated service costs of future employees.
- Cash flows occur mid-year.

Actuarial Methods and Assumptions (Continued)

Based on these assumptions, the Plan's FNP was projected to not be depleted.

The FNP projections are based upon the Plan's financial status on the Valuation Date, the indicated set of methods and assumptions, and the requirements of GASB 74. As such, the FNP projections are not reflective of the cash flows and asset accumulations that would occur on an ongoing plan basis, reflecting the impact of future members. Therefore, the results of this test do not necessarily indicate whether or not the fund will actually run out of money, the financial condition of the Plan, or the Plan's ability to make benefit payments in future years.

The following exhibit presents the NOL of the Plan, calculated using current health care cost trend rates, as well as what the Plan's NOL would be if it were calculated using health care cost trend rates that are 1-percentage-point lower or 1- percentage-point higher than the current rates.

The TOL is based upon an actuarial valuation performed as of the Valuation Date, January 1, 2017. An expected TOL is determined as of December 31, 2018 using standard roll forward techniques. The roll forward calculation begins with the TOL, as of January 1, 2017, subtracts the actual benefit payments and refunds for the year, applies interest at the discount rate for the year, and then adds the annual normal cost (also called the Service Cost). The procedure used to determine the TOL, as of December 31, 2018, is shown in the following table:

Description	Total OPEB Liability (a)	Plan Fiduciary Net Position (b)	Net OPEB Liability (a) - (b)

The City does not have a special funding situation.

Since the Prior Measurement Date, the Discount Rate has not changed.

There are no changes in benefit terms since the Measurement Date.

No benefit payments are attributable to the purchase of allocated insurance contracts.

Since certain expense items are recognized over closed periods each year, the deferred portions of these items must be tracked annually. If the amounts will increase OPEB Expense they are labeled Deferred Outflows of Resources. If they serve to reduce OPEB Expense they are labeled Deferred Inflows of Resources. The recognition of these amounts is accomplished on a level dollar basis, with no interest included in the deferred amounts. Experience gains/losses and the impact of changes in actuarial assumptions or other inputs, if any, are recognized over the average expected remaining service life of the active and inactive Plan members at the beginning of the measurement period. Investment gains and losses are recognized over a fixed five year period.

The following table provides a summary of the Deferred Outflows of Resources and Deferred Inflows of Resources as of December 31, 2018:

Pension Plan

Description of the Entity

The South Carolina Public Employee Benefit Authority (PEBA), created July 1, 2012 and governed by an 11 member Board, is the state agency responsible for the administration and management of the various Retirement Systems and retirement programs of the state of South Carolina, including the State Optional Retirement Program and the S.C. Deferred Compensation Program, as well as the state's employee insurance programs. As such, PEBA is responsible for administering the South Carolina Retirement Systems' five defined benefit pension plans. The Retirement Funding and Administration Act of 2017, which became effective July 1, 2017, increased the employer and employee contribution rates, established a ceiling on the SCRS and PORS employee contribution rates, lowered the assumed rate of return, required a scheduled reduction of the funding periods, and addressed various governance issues including the assignment of the PEBA Board as custodian of the retirement trust funds and assignment of the RSIC and PEBA as cotrustees of the assets of the retirement trust funds. By law, the State Fiscal Accountability Authority (SFAA), which consists of five elected officials, also reviews certain PEBA Board decisions regarding the actuary of the Systems.

For purposes of measuring the net pension liability, deferred outflows and inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Systems and additions to/deductions from the Systems fiduciary net position have been determined on the accrual basis of accounting as they are reported by the Systems in accordance with generally accepted accounting principles (GAAP). For this purpose, revenues are recognized when earned and expenses are recognized when incurred. Benefit and refund expenses are recognized when due and payable in accordance with the terms of the plan. Investments are reported at fair value.

PEBA issues a Comprehensive Annual Financial Report (CAFR) containing financial statements and required supplementary information for the Systems' Pension Trust Funds. The CAFR is publicly available through the Retirement Benefits' link on PEBA's website at www.peba.sc.gov, or a copy may be obtained by submitting a request to PEBA, 202 Arbor Lake Drive, Columbia, SC 29223. PEBA is considered a division of the primary government of the state of South Carolina and therefore, retirement trust fund financial information is also included in the comprehensive annual financial report of the state.

Plan Descriptions

- The South Carolina Retirement System (SCRS), a cost-sharing multiple-employer defined benefit pension plan, was established effective July 1, 1945, pursuant to the provisions of Section 9-1-20 of the South Carolina Code of Laws for the purpose of providing retirement and other benefits for teachers and employees of the state and its political subdivisions. SCRS covers employees of state agencies, public school districts, higher education institutions, other participating local subdivisions of government and individuals newly elected to the South Carolina General Assembly at or after the 2012 general election.

NOTE 7 – LONG-TERM OBLIGATIONS (CONTINUED)

- The South Carolina Police Officers Retirement System (PORS), a cost-sharing multiple-employer defined benefit pension plan, was established July 1, 1962, pursuant to the provisions of Section 9-11-20 of the South Carolina Code of Laws for the purpose of providing retirement other benefits to police officers and firefighters. PORS also covers peace officers, coroners, probate judges and magistrates.

In addition to the plans described above, PEBA also administers three single-employer defined benefit pension plans, which are not covered in this report. They are the Retirement System for Members of the General Assembly of the State of South Carolina (GARS), the Retirement System for Judges and Solicitors of South Carolina (JSRS), and the South Carolina National Guard Supplemental Retirement Plan (SCNG).

Membership

Membership requirements are prescribed in Title 9 of the South Carolina Code of Laws. A brief summary of the requirements under each system is presented below.

- SCRS - Generally, all employees of covered employers are required to participate in and contribute to the system as a condition of employment. This plan covers general employees and teachers and individuals newly elected to the South Carolina General Assembly beginning with the November 2012 general election. An employee member of the system with an effective date of membership prior to July 1, 2012, is a Class Two member. An employee member of the system with an effective date of membership on or after July 1, 2012, is a Class Three member.
- PORS - To be eligible for PORS membership, an employee must be required by the terms of his employment, by election or appointment, to preserve public order, protect life and property, and detect crimes in the state; to prevent and control property destruction by fire; or to serve as a peace officer employed by the Department of Corrections, the Department of Juvenile Justice, or the Department of Mental Health. Probate judges and coroners may elect membership in PORS. Magistrates are required to participate in PORS for service as a magistrate. PORS members, other than magistrates and probate judges, must also earn at least \$2,000 per year and devote at least 1,600 hours per year to this work, unless exempted by statute. An employee member of the system with an effective date of membership prior to July 1, 2012, is a Class Two member. An employee member of the system with an effective date of membership on or after July 1, 2012, is a Class Three member.

Benefits

Benefit terms are prescribed in Title 9 of the South Carolina Code of Laws. PEBA does not have the authority to establish or amend benefit terms without a legislative change in the code of laws. Key elements of the benefit calculation include the benefit multiplier, years of service, and average final compensation/current annual salary. A brief summary of benefit terms for each system is presented below.

CITY OF WALTERBORO, SOUTH CAROLINA
NOTES TO FINANCIAL STATEMENTS

NOTE 7 – LONG-TERM OBLIGATIONS (CONTINUED)

- **SCRS** - A Class Two member who has separated from service with at least five or more years of earned service is eligible for a monthly pension at age 65 or with 28 years credited service regardless of age. A member may elect early retirement with reduced pension benefits payable at age 55 with 25 years of service credit. A Class Three member who has separated from service with at least eight or more years of earned service is eligible for a monthly pension upon satisfying the Rule of 90 requirement that the total of the member's age and the member's creditable service equals at least 90 years. Both Class Two and Class Three members are eligible to receive a reduced deferred annuity at age 60 if they satisfy the five- or eight-year earned service requirement, respectively. An incidental death benefit is also available to beneficiaries of active and retired members of employers who participate in the death benefit program.

The annual retirement allowance of eligible retirees or their surviving annuitants is increased by the lesser of one percent or five hundred dollars every July 1. Only those annuitants in receipt of a benefit on July 1 of the preceding year are eligible to receive the increase. Members who retire under the early retirement provisions at age 55 with 25 years of service are not eligible for the benefit adjustment until the second July 1 after reaching age 60 or the second July 1 after the date they would have had 28 years of service credit had they not retired.

- **PORS** - A Class Two member who has separated from service with at least five or more years of earned service is eligible for a monthly pension at age 55 or with 25 years of service regardless of age. A Class Three member who has separated from service with at least eight or more years of earned service is eligible for a monthly pension at age 55 or with 27 years of service regardless of age. Both Class Two and Class Three members are eligible to receive a deferred annuity at age 55 with five or eight years of earned service, respectively. An incidental death benefit is also available to beneficiaries of active and retired members of employers who participate in the death benefit program. Accidental death benefits are also provided upon the death of an active member working for a covered employer whose death was a natural and proximate result of an injury incurred while in the performance of duty.

The retirement allowance of eligible retirees or their surviving annuitants is increased by the lesser of one percent or five hundred dollars every July 1. Only those annuitants in receipt of a benefit on July 1 of the preceding year are eligible to receive the increase.

Contributions

Contributions are prescribed in Title 9 of the South Carolina Code of Laws. If the scheduled employee and employer contributions provided in statute, or the rates last adopted by the board, are insufficient to maintain the amortization period set in statute, the board shall increase employer contribution rates as necessary.

NOTE 7 – LONG-TERM OBLIGATIONS (CONTINUED)

After June 30, 2027, if the most recent annual actuarial valuation of the Systems for funding purposes shows a ratio of the actuarial value of system assets to the actuarial accrued liability of the system (the funded ratio) that is equal to or greater than eighty-five percent, then the board, effective on the following July first, may decrease the then current contribution rates upon making a finding that the decrease will not result in a funded ratio of less than eighty-five percent. If contribution rates are decreased pursuant to this provision, and the most recent annual actuarial valuation of the system shows a funded ratio of less than eighty-five percent, then effective on the following July first, and annually thereafter as necessary, the board shall increase the then current contribution rates until a subsequent annual actuarial valuation of the system shows a funded ratio that is equal to or greater than eighty-five percent.

The Retirement System Funding and Administration Act establishes a ceiling on employee contribution rates at 9 percent and 9.75 percent for SCRS and PORS respectively. The employer contribution rates will continue to increase annually by 1 percent through July 1, 2022. The legislation's ultimate scheduled employer rate is 18.56 percent for SCRS and 21.24 percent for PORS. The amortization period is scheduled to be reduced one year for each of the next 10 years to a twenty year amortization period.

Actuarial Assumptions and Methods

Actuarial valuations of the plan involve estimates of the reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and future salary increases. Amounts determined regarding the net pension liability are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. South Carolina state statute requires that an actuarial experience study be completed at least once in each five-year period. An experience report on the Systems was most recently issued for the period ending June 30, 2015.

NOTE 7 – LONG-TERM OBLIGATIONS (CONTINUED)

The June 30, 2018, total pension liability (TPL), net pension liability (NPL), and sensitivity information shown in this report were determined by consulting actuary, Gabriel, Roeder, Smith and Company (GRS) and are based on an actuarial valuation performed as of July 1, 2017. The total pension liability was rolled-forward from the valuation date to the plans' fiscal year end, June 30, 2018, using generally accepted actuarial principles.

The following provides a summary of the actuarial assumptions and methods used to calculate the TPL as of June 30, 2018.

	SCRS	PORS
Actuarial cost method	Entry age normal	Entry age normal
Investment rate of return ¹	7.25%	7.25%
Projected salary increases	3.0% to 12.5% (varies by service) ¹	3.5% to 9.5% (varies by service) ¹
Benefit adjustments	Lesser of 1% or \$500 annually	Lesser of 1% or \$500 annually

¹ includes inflation at 2.25%

The post-retiree mortality assumption is dependent upon the member's job category and gender. The base mortality assumptions, the 2016 Public Retirees of South Carolina Mortality table (2016 PRSC), was developed using the Systems' mortality experience. These base rates are adjusted for future improvement in mortality using published Scale AA projected from the year 2016.

Assumptions used in the determination of the June 30, 2018, TPL are as follows.

Former Job Class	Males	Females
Educators	2016 PRSC Males multiplied by 92%	2016 PRSC Females multiplied by 98%
General Employees and Members of the General Assembly	2016 PRSC Males multiplied by 100%	2016 PRSC Females multiplied by 111%
Public Safety and Firefighters	2016 PRSC Males multiplied by 125%	2016 PRSC Females multiplied by 111%

Net Pension Liability

The NPL is calculated separately for each system and represents that particular system's TPL determined in accordance with GASB No. 67 less that System's fiduciary net position. NPL totals, as of June 30, 2018, for SCRS and PORS are presented below.

System	Total Pension Liability	Plan Fiduciary Net Position	Employers' Net Pension Liability (Asset)	Plan Fiduciary Net Position as a % of the Total Pension Liability
SCRS	\$ 10,851,125	\$ 5,870,980	\$ 4,980,145	54.1%
PORS	10,331,280	6,377,441	3,953,839	61.7%
	<u>\$ 21,182,405</u>	<u>\$ 12,248,421</u>	<u>\$ 8,933,984</u>	

The TPL is calculated by the Systems' actuary, and each plan's fiduciary net position is reported in the Systems' financial statements. The NPL is disclosed in accordance with the requirements of GASB 67 in the Systems' notes to the financial statements and required supplementary information. Liability calculations performed by the Systems' actuary for the purpose of satisfying the requirements of GASB Nos. 67 and 68 are not applicable for other purposes, such as determining the plans' funding requirements.

Long-term Expected Rate of Return

The long-term expected rate of return on pension plan investments is based upon 30 year capital market assumptions. The long-term expected rate of returns represent assumptions developed using an arithmetic building block approach primarily based on consensus expectations and market based inputs. Expected returns are net of investment fees.

The expected returns, along with the expected inflation rate, form the basis for the target asset allocation adopted at the beginning of the 2018 fiscal year. The long-term expected rate of return is produced by weighting the expected future real rates of return by the target allocation percentage and adding expected inflation and is summarized in the table on the following page. For actuarial purposes, the 7.25 percent assumed annual investment rate of return used in the calculation of the TPL includes 5.00 percent real rate of return and a 2.25 percent inflation component.

Discount Rate

The discount rate used to measure the TPL was 7.25 percent. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers in SCRS and PORS will be made based on the actuarially determined rates based on provisions in the South Carolina Code of Laws. Based on those assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the TPL.

Sensitivity Analysis

The following table presents the collective NPL of the participating employers calculated using the discount rate of 7.25 percent, as well as what the employers' NPL would be if it were calculated using a discount rate that is 1.00 percent lower (6.25 percent) or 1.00 percent higher (8.25 percent) than the current rate.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate			
System	1% Decrease (6.25%)	Current Discount Rate (7.25%)	1% Increase (8.25%)
SCRS	\$ 6,363,692	\$ 4,980,145	\$ 3,991,030
PORS	5,330,271	3,953,839	2,826,428

Pension Expense

Components of collective pension expense reported in the Schedules of Pension Amounts by Employer for the fiscal year ended June 30, 2018, are presented below:

Description	SCRS	PORS
Service cost (annual cost of current service)	\$ 202,445	\$ 257,544
Interest on the total pension liability	756,037	698,743
Plan administrative costs	3,258	3,350
Plan member contributions	(193,073)	(193,470)
Expected return on plan assets	(404,142)	(430,607)
Recognition of current year amortization - Difference between expected and actual experience and assumption changes	96,858	157,936
Recognition of current year amortization - Difference between projected and actual investment earnings	23,085	25,153
Other	341	(2,142)
Total	\$ 484,809	\$ 516,507

Additional items included in Total Employer Pension Expense in the Schedules of Pension Amounts by Employer are the current period amortized portions of deferred outflows and/or inflows of resources related to changes in employers' proportionate share of the collective NPL and differences between actual employer contributions and proportionate share of total plan employer contributions. These two deferrals are specific to cost-sharing multiple-employer defined benefit pension plans as discussed in paragraphs 54 and 55 of GASB 68.

Employer and Nonemployer Contributions

Employers' proportionate shares were calculated on the basis of employer contributions remitted to the plan by employers and nonemployer contributions appropriated in the State's budget. In an effort to help offset a portion of the burden of the increased contribution requirement for employers, the General Assembly funded 1 percent of the SCRS and PORS contribution increases for fiscal year 2018. The State's budget appropriated these funds directly to PEBA for the South Carolina Retirement System Trust Fund and the Police Officers Retirement System Trust Fund. The amount of nonemployer funds appropriated for fiscal year 2018 totaled \$105 million and \$13.1 million for SCRS and PORS respectively.

Employer contributions recognized by the Systems that are not representative of future contribution effort are excluded in the determination of employers' proportionate shares. Examples of employer contributions not representative of future contribution effort are contributions toward the purchase of employee service purchases and employer contributions paid by employees.

The following table provides a reconciliation of Employer and Nonemployer contributions in the plans' Statement of Changes in Fiduciary Net Position (per the Systems' separately issued financial statements) to the Employer and Nonemployer contributions used in the determination of employers' proportionate shares of collective pension amounts reported in the Schedules of Employer and Nonemployer Allocations.

Additional Financial and Actuarial Information

Information contained in these Notes to the Schedules of Employer and Nonemployer Allocations and Schedules of Pension Amounts by Employer (Schedules) was compiled from the Systems' audited financial statements for the fiscal year ended June 30, 2018, and the accounting and financial reporting actuarial valuation as of June 30, 2018. Additional financial information supporting the preparation of the Schedules (including the unmodified audit opinion on the financial statements and required supplementary information) is available in the Systems' CAFR.

Payables to the Pension Plan

At June 30, 2019, the Town reported payables of \$0 that represents the amount due for the month of June.

401(K) Plan

City of Walterboro currently offers substantially all full-time employees the option of participating in a 401(K) plan. Empower Retirement administers the plan as an affiliate of Great West Financial Services, Inc. Under the terms of the plan employees may contribute a minimum of two percent and a maximum of twenty percent of adjusted gross income subject to the limits of Section 401(K) of the Internal Revenue Code. It is the opinion of the City's legal counsel that the government has no liability for losses under the plan but does have the duty of due care that would be required of an ordinary prudent investor. Therefore, the assets and liabilities of the 401(K) plan are not reflected in the City's financial statements.

NOTE 8 – SUMMARY DISCLOSURE OF SIGNIFICANT COMMITMENTS AND CONTINGENCIES

The City has several lawsuits against it. Most of this litigation is covered by insurance or settled through subsequent agreements. Although the outcome of these lawsuits is not presently determinable, in the opinion of the City the resolution of these matters will not have a material adverse effect on the financial condition of the City.

In the normal course of operations the City receives grant funds from various federal and state agencies. These grant programs are subject to program compliance audits by grantors or representatives. The amount, if any, of liability for reimbursement which may arise from these audits cannot be determined at this time, although the City expects such amounts, if any, to be immaterial.

NOTE 9 – RISK MANAGEMENT

The City is exposed to various types of risk of loss and maintains elements of both self-insurance and purchased insurance policies divided into coverage of worker's compensation, property and casualty, and employee health insurance. Management believes such coverage is sufficient to preclude any significant uninsured losses for the covered risks. The insurers promise to pay to or on behalf of the insured for covered economic losses sustained during the policy period in accordance with insurance policy and benefit program limits.

**CITY OF WALTERBORO, SOUTH CAROLINA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019**

NOTE 9 – RISK MANAGEMENT (CONTINUED)

The State of South Carolina itself assumes substantially all risks for the following:

Claims of covered public employees for health and dental insurance benefits (Office of Insurance Services),

Claims of covered public employees for long-term disability and group-life insurance benefits (Retirement System), and

Property and casualty insurance on buildings, equipment, and vehicles owned by the City as well as tort liability on City employees (South Carolina Insurance Reserve Fund).

The City participates in the South Carolina Municipal Association Workers' Compensation Pool, a public entity risk pool for its Workers Compensation coverage. Pool members are subject to a supplemental assessment in the event of deficiencies.

The City has recorded insurance premium expenditures in the applicable functional expenditure categories of the General Fund. These expenditures do not include estimated claim losses and estimable premium adjustments.

In management's opinion, supplemental premium assessments, if any, would not be significant enough to have a material adverse effect on the financial position of the City.

There have not been any reductions in insurance coverage from the prior year.

The amounts of settlements have not exceeded coverage in each of the past three fiscal years.

NOTE 12 – TAX ABATEMENTS

The City negotiates property tax abatement agreements on an individual basis. The City has tax abatement agreements with the following as of June 30, 2019:

Purpose	Percentage of Taxes Abated during the Fiscal Year	Amount of Taxes Abated during the Fiscal Year
Provide health care to citizens in the area	57%	\$ 12,072

Industries that invest at least \$2.5 million in South Carolina may negotiate for a fee-in-lieu of property taxes. This can result in a savings of about 40% on property taxes otherwise due for a project. Certain large investments may be able to further reduce their liability by negotiating the assessment ratio from 10.5% down to 6%. For large investments, the assessment ratio can be reduced down to 4%. The City and the industry may agree to either set the millage rate for the entire agreement period or have the millage change every five years in step with the average millage rate for the area where the project is located. Any personal property subject to the fee in lieu of property taxes depreciates in accordance with South Carolina law, while the real property is either set at cost for the life of the agreement or can be appraised every five years.

CITY OF WALTERBORO, SOUTH CAROLINA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019

NOTE 12 – TAX ABATEMENTS (CONTINUED)

A fee in lieu of property taxes is granted by, and at the discretion of, the City where the project is located. The industry must make the \$2.5 million investment over a five-year period to qualify. Large investment projects have eight years to meet their increased investment requirements. During this period, all property that is placed in service pursuant to the agreement is subject to a fee instead of ad valorem property taxes. A city may give the industry an additional five years to complete the project and place new property in service subject to the fee. A single piece of property can be subject to the fee for up to 40 years with the City's consent. The total project can be subject to the fee for up to 50 years with the City's consent.

NOTE 13 – SUBSEQUENT EVENTS

Management has evaluated subsequent events through September 18, 2019, the date the financial statements were issued, and determined that the following significant events has occurred:

The City plans to apply to the Economic Development Administration for funding of the expansion of the Wastewater Treatment Plant. If approved, remaining funds will originate from a loan with the State Revolving Fund.

PROPRIETARY FUND

Enterprise Fund

Proprietary Funds are used to account for operation of the City (a) that are financed and operated in a manner similar to private business, where the intent is for the cost of providing goods or services to be recovered, in whole or in part, through user charges; or (b) where the City Council has decided that periodic determination of revenues earned, expense incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes. This fund consists of water and sewer operations in the City of Walterboro, and communities of Ruffin and Hendersonville. It also reports the revenues and expenses generated by the Sanitation Department.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the City. This process recognizes that, when considering the City's ability to issue and repay long-term, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government. The calculation is based on the assessed value of the City to the assessed value of the County.

**CITY OF WALTERBORO, SOUTH CAROLINA
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
FOR THE YEAR ENDED JUNE 30, 2019**

NOTE 1 – BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal award activity of The City of Walterboro (the City) under programs of the federal government for the year ended June 30, 2019. The information in the schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the City, it is not intended to and does not present the financial position, changes in net assets, or cash flows of the City.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, wherein certain types of expenditures may or may not be allowable or may be limited as to reimbursement. The City has elected not to use the 10% de minimis indirect cost rate as allowed under the Uniform Guidance.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Mayor and City Council
City of Walterboro, South Carolina
Walterboro, South Carolina 29488

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Walterboro, South Carolina, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the City of Walterboro, South Carolina's basic financial statements, and have issued our report thereon dated September 18, 2019.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City of Walterboro, South Carolina's internal control over financial reporting internal control to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Walterboro, South Carolina's internal control. Accordingly, we do not express an opinion on the effectiveness of the City of Walterboro, South Carolina's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of Walterboro, South Carolina's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM
AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Mayor and City Council
City of Walterboro, South Carolina
Walterboro, South Carolina 29488

Report on Compliance for Each Major Federal Program

We have audited City of Walterboro, South Carolina's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of City of Walterboro, South Carolina's major federal programs for the year ended June 30, 2019. City of Walterboro, South Carolina's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of City of Walterboro, South Carolina's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about City of Walterboro, South Carolina's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of City of Walterboro, South Carolina's compliance.

Opinion on Each Major Federal Program

In our opinion, City of Walterboro, South Carolina complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2019.

Report on Internal Control over Compliance

Management of City of Walterboro, South Carolina is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered City of Walterboro, South Carolina's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of City of Walterboro, South Carolina's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
