

Petition to Address Unsafe Buildings

This petition has been compiled to address the urgent concern of abandoned buildings within our community. It is crucial that we take collective action to mitigate the hazards posed by these neglected structures and ensure the safety and well-being of all residents. The presence of neglected structures not only undermines the aesthetic appeal of our neighborhood, but also poses significant risks to public health and safety.

By signing, you agree the listed building falls under the definition of "unsafe buildings" as outlined in ARTICLE II. - UNSAFE BUILDINGS, Sec. 6-41 and call upon the Building Official and/or other relevant authorities to enforce the provisions set forth by the City of Walterboro.

Unsafe buildings means:

- (1) Structures which do not provide adequate egress constitute a fire hazard or are otherwise dangerous to human life or which, in relation to existing use, constitute a hazard to safety or health.
- (2) Buildings with inadequate maintenance, dilapidation, obsolescence, abandonment, or other conditions rendering such buildings unsafe or unsanitary, dangerous, or detrimental to the health, safety, morals, or general welfare of the citizens of the City.
